

TT35A

Quick Guide

Android 4.0.3

TT35A SPECIFICATION

BASIC INFOMATION	
PROCESSOR	Texas Instruments AM3715 1GHz
STORAGE & MEMORY	512M FLASH, 512M SDRAM
OS	Android 4.0.3
CONNECTIVITY	1. Bluetooth 2.1
	2. WIFI 802.11b/g/n
	3. GPRS/HSPA/EVDO
GPS MODULE	Ublox The 6th Generation (option)
PC CONNECTOR	USB 2.0 High-Speed
SCREEN	
SCREEN SIZE	3.5-in VGA LCD
SCREEN RESOLUTION	480 × 640
TOUCH SCREEN TYPE	Resistive touchscreen
BACK LIGHT TYPE	Transflective screen, Back lighting, visible under sun
CAMERA	
MEGAPIXELS	5MP
FOCUS	Autofocus
SCAN DISTENCE	5cm~30cm
IDENTIFICATION RIGHTNESS	No light no less than 13Lx and can identify 0.3Lx with fill light
EXPANSIBILITY	
BARCODE MODULE	NewLand: EM1300
	NewLand: EM3000
	Symbol: SE955
	Symbol: SE4500
RFID MODULE	1. UHF RFID 900MHz
	2. HF RFID 13.56MHz(ISO/IEC 14443A/B, 15693)
	3. LF RFID (125K, 134.2K option)
EXPANSIBILITY	Optical Fingerprint Identification
	Semiconductor Fingerprint Identification
COMMUNICATION	
COMMUNICATION MODULE	GSM/GPRS quad-band 850/1900/2100 MHz
	CMDA dual-band 800/1900 MHz
COMMUNICATION ABILITY	WCDMA HSDPA+ Upstream: 14.4Mbps Downstream: 5.76Mbps
	CDMA EVDO Upstream: 3.1Mbps Downstream: 1.8Mbps
PHYSICAL:	
SIZE	175mm × 77.5mm × 24.4mm
BATTERY	4500mAh 3.7V
WORK ENVIRONMENT	Temperature Range: -20℃ ~ +50℃
	Humidity Range: 5% ~ 95% (no condensation)
	Within the scope of operation, 6 surface can withstand the impact of falling to cement floor from 1.5 meters in height
	Scroll Specification: 1000 times 0.5m 6 rolling contact surface
	Seal Grade: IP65

1. EXTERNAL STRUCTURE DESCRIPTION

PASM
Industrial grade
Barcode terminal

Operating system

Microphone

The power button

Charger

Earplug

Electric shock base

Menu key

Scan code key

Return key

Reset hole

3.5LCD transfective screen

Receiver

USB2.0

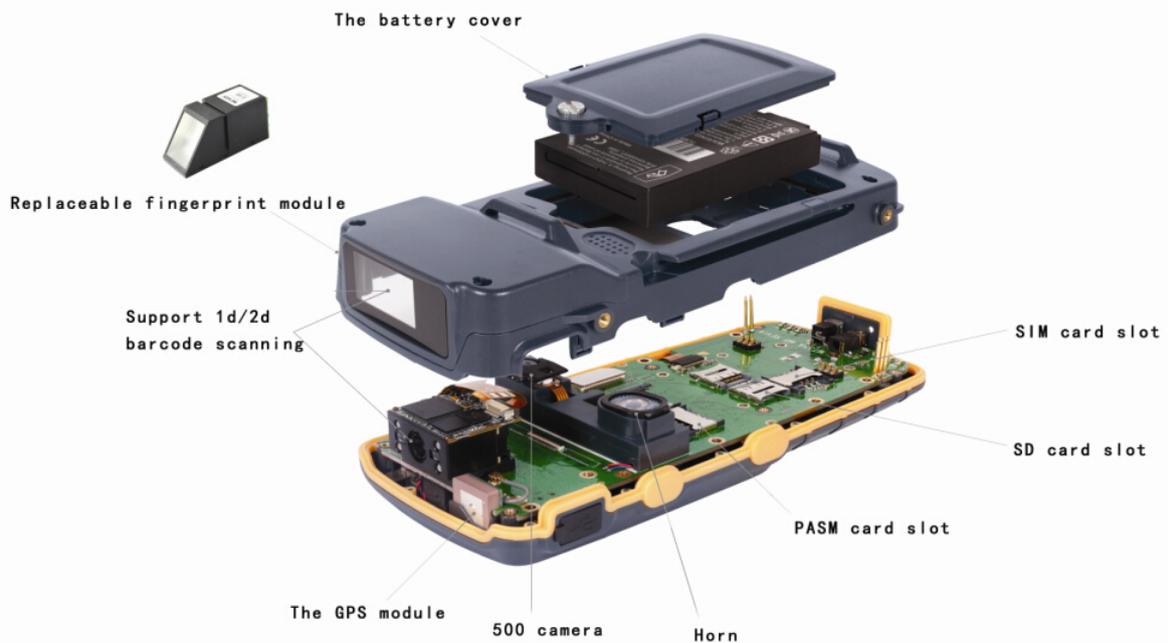

Function key F4

Camera button

The scan head optional

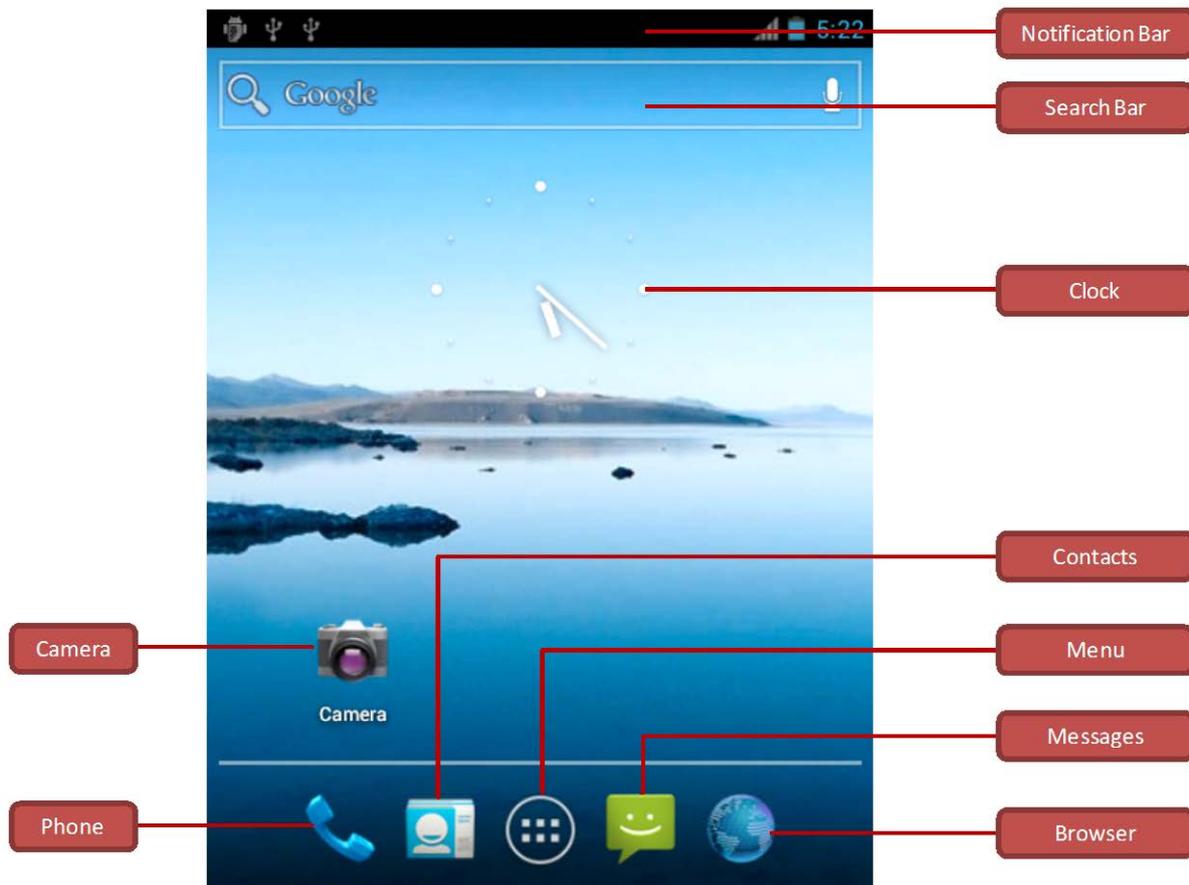

4500Mah large capacity battery

Touch pen

2. HOME SCREEN

Home screen shows some important informations such as missed calls and messages. Touch the shortcut menu to make a call, take photos, check messages and so on directly.

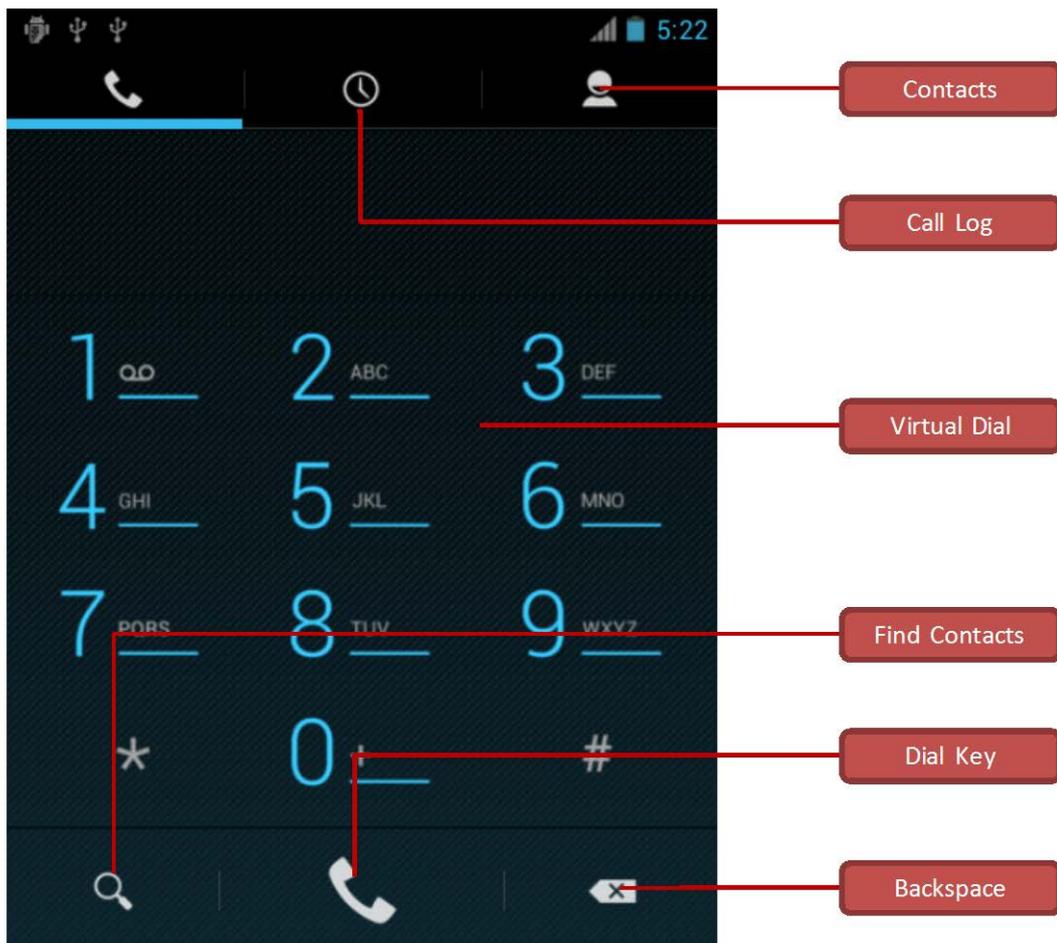

2.1 Notification Bar Icons

	Signal strength		No signal
	GPRS network connected		EDGE network connected
	3G network connected		HSPA network connected
	Roaming		Airplane mode
	Bluetooth on		Receiving location data from GPS
	Speaker activated		Alarm enabled
	Vibration mode		Silence mode
	Call muted		Charging
	Battery full		Battery extremely low
	Call in progress		Missed calls
	Call in progress using a Bluetooth headset		New mail in your Gmail account

3. OPERATION INSTRUCTIONS

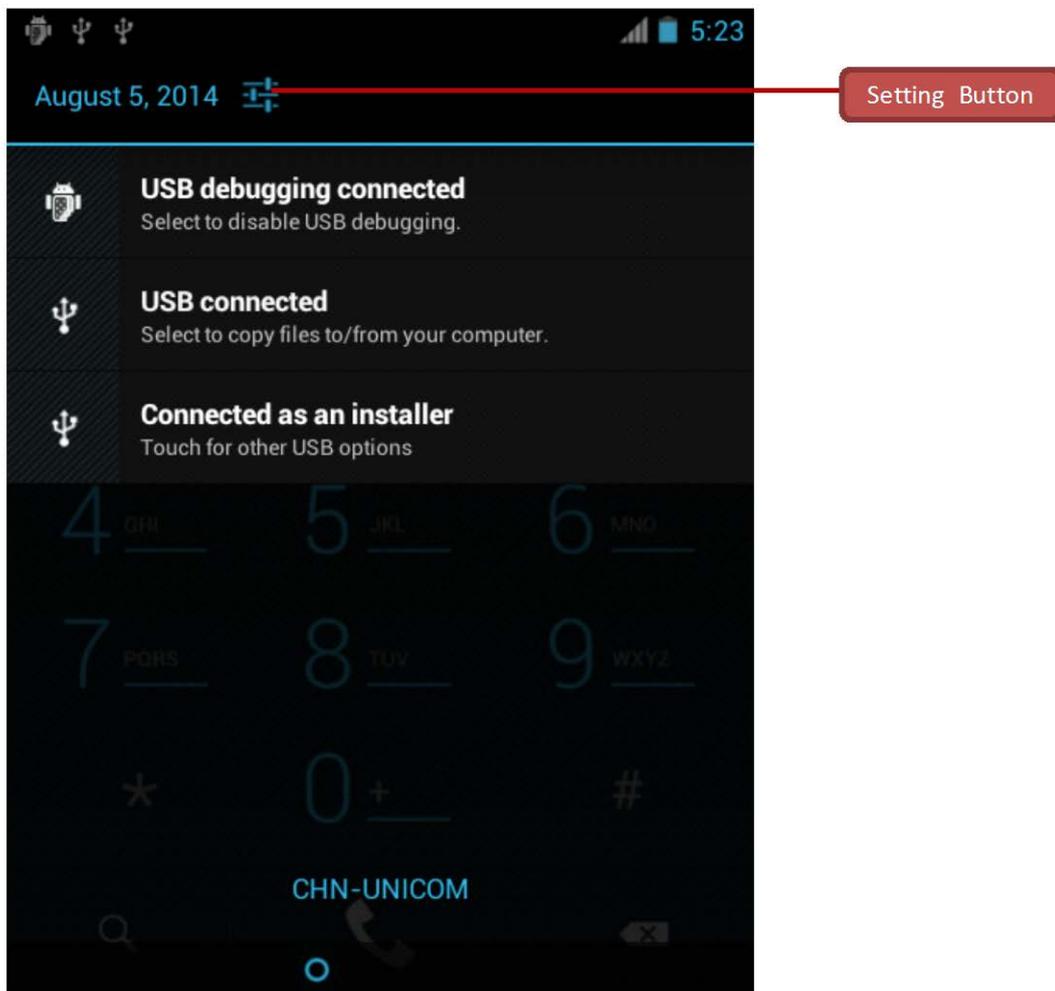

3.1 Dialing

Click the Phone at Home Screen into dial interface. The following figure:

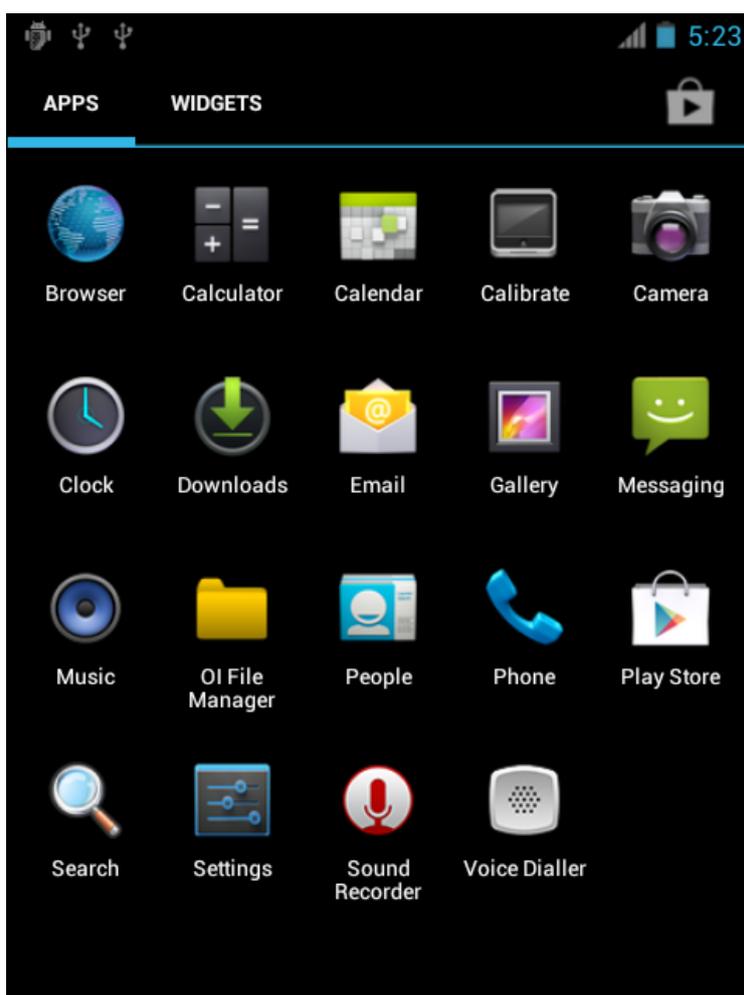

3.2 Notification Bar Drop-down Menu

Click the Notification Bar downward-sloping, open the following interface:

3.3 Main Menu

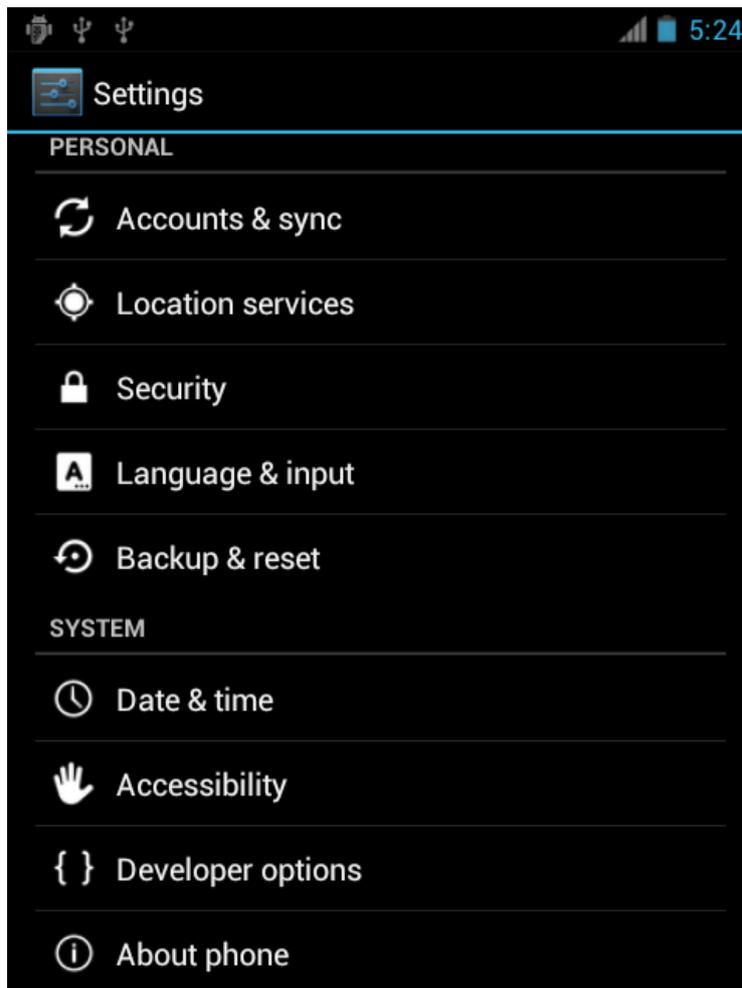

Click Menu in Home Screen, you' ll see the picture below:

All apps are list here, click the icon to start the application. If there are too many icons can' t display on this screen, please slide finger to the left to show more icons. Click or slide to the widget, long press parts to add to the desktop.

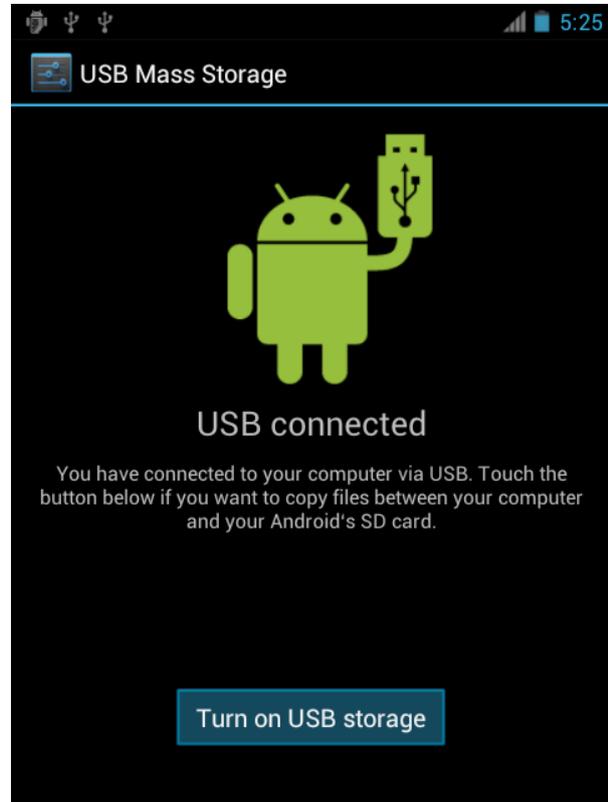

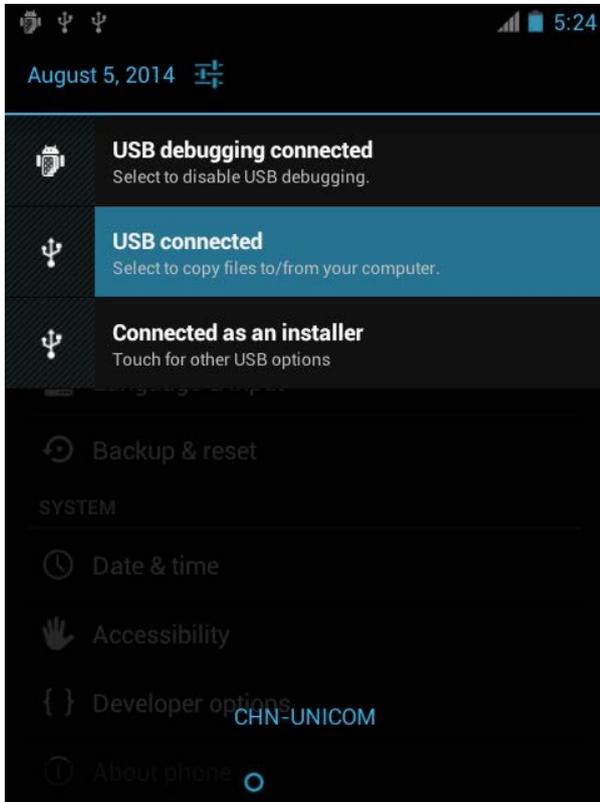

3.4 Settings Menu

Click Settings at Main menu, as shown in fig:

All the settings about the phone are list here, such as Wi-Fi, Language & input and Apps. Slide up & down to see more settings.

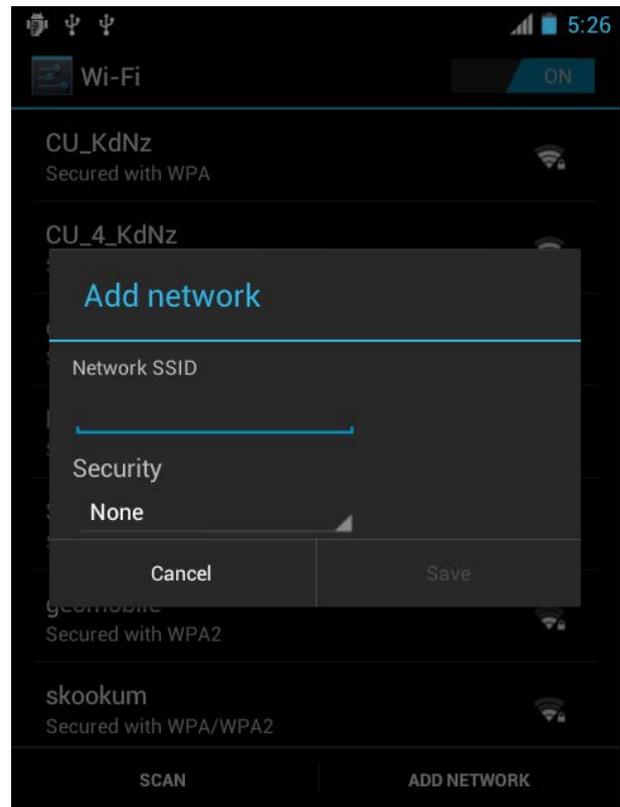

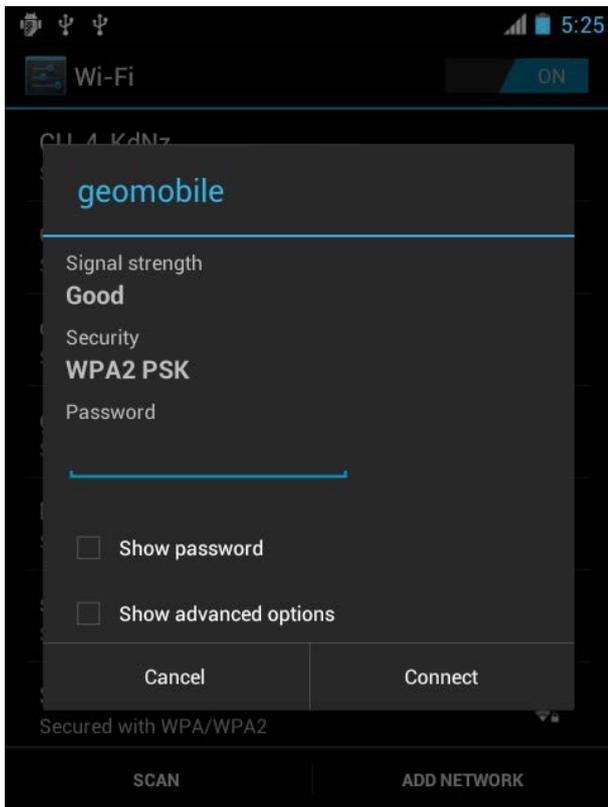

3.5 File Transfer Instructions

Ensure that the TF card installed well and the USB cable is connected to PC well. Drag down the Notification Bar and click the USB connected, turn to next picture, click Turn on USB storage. When successful, the robot will change to orange. Now the pc will notice you a removable storage device is connected, you can use it just like a u-disk.

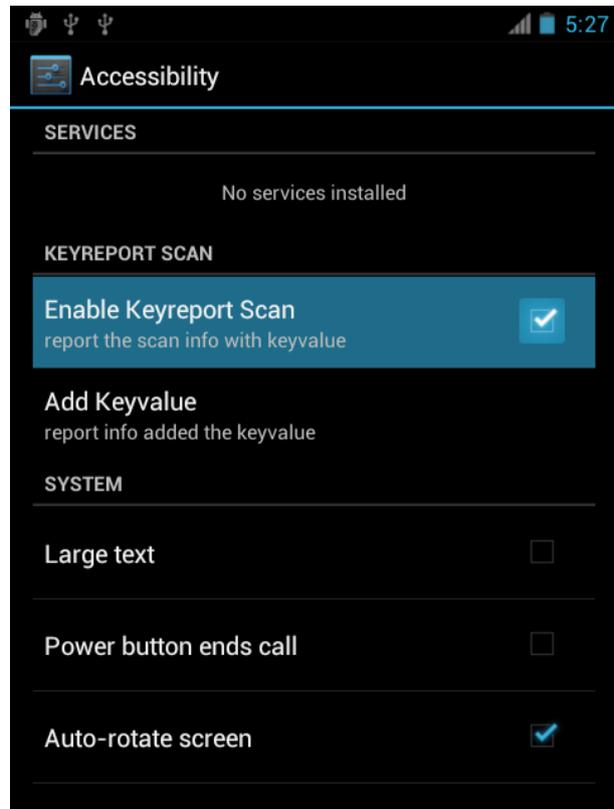

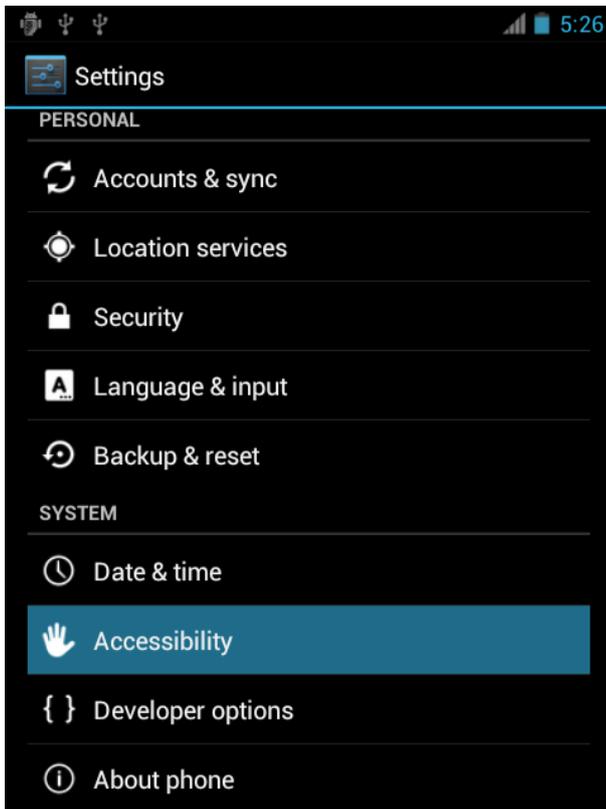

3.6 Wi-Fi

The device is in wireless network environment and can use it. Go into Settings, turn Wi-Fi ON below WIRELESS & NETWORKS. Then it will list the networks available. Choose the hotspot you want to connect directly, input password. If it is a network hidden SSID, please click ADD NETWORK, input SSID and select the security type.

3.7 Focus Scanning

When cursor is in a input status, the device can scan barcode and input the result to where cursor in by press SCAN KEY. Before implement it, you should do a setting. Go into Settings → Accessibility, and check Enable Keyreport Scan just like the pictures below. Then you can use Focus Scanning.

Note:

1. You should designated the position of cursor before use Focus Scanning, or you won't see the messages about barcode.

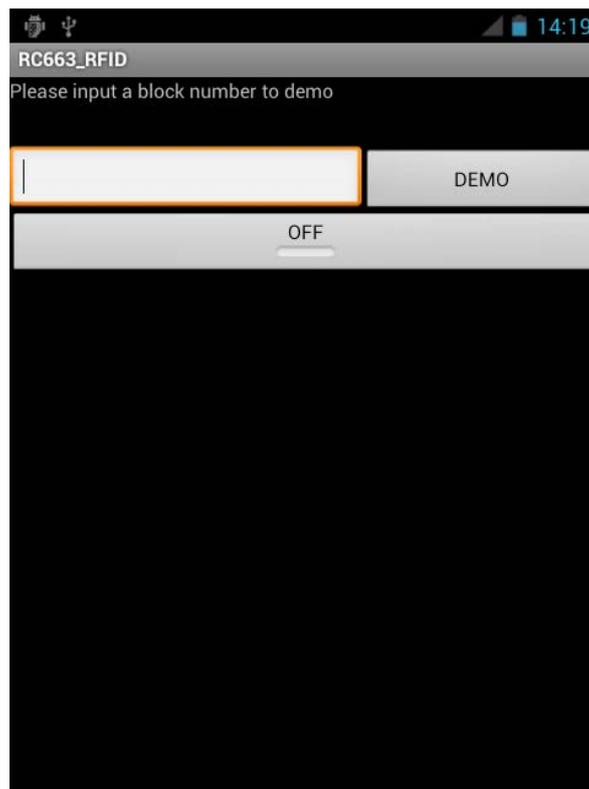

2. The Add Keyvalue under Enable Keyreport Scan is an option for Focus Scanning. You can choose one to add nothing, an table or an enter after the bacode messages.
3. Be sure of the Enable Keyreport Scan do not checked when using Barcode scan Demo we provided. You can' t use Demo and Focus Scanning at the same time.

3.8 About TF Card

The device has two TF card slot. Located above a SIM card slot on the left side of the /mnt/sdcard2 card slot is not the default of the mount , but you can visit. And the other /mnt/sdcard is mounted by default. Data on the drive can be 1,4,8. Hardware can connect up to 8 bits, we had four links.

3.9 RFID(optional)

If the phone has RFID module , open RC663_RFID application. Place a Mifare One card to the reader range, input a number of sector and click DEMO. The screen will display the informations after read and write this sector.

When develop application related RFID, we' ll provide you the DEMO and documentations.

4. SPECIAL CUSTOMIZATION INSTRUCTIONS

This phone has many reserved port to meet the customization. It can connect with RS232, I2C, RS485 and other interface' s peripherals or some function modules. Please contact the phone manufacturer to get more information.

5. NORMAL MODEL

Num	Model	Specification
1	TT35A-S TT35A Standard	Standard configuration:BT/GPS/GPRS/WIFI/4500mA battery/3.5"LCD/WCDMA/charger/cable/Industrial packaging
2	TT35A-NL 1D Infrared barcode scanner	Standard + Newland EM1300 Support Code128, EAN-13, EAN-8, Code39, UPC-A, UPC-E, Codabar, Interleaved 2 of 5, ISBN/ISSN, Code 93
3	TT35A-NL2D 1D&2D barcode scanner	Standard + Newland EM3000 1D&2D barcode scanner /Hardware decoding
4	TT35A-SY 1D laser scanning	Standard + Symbol SE955
5	TT35A-R60 RFID	Standard + HF RFID module 13.56MHz 14443/15693
6	TT35A-D6	Standard + U BLOX GPS moudle
7	TT35A-N43 1D Laser scanning	Standard + Honeywell N4313
8	TT35A-SE45SR Symbol SE4500SR scanner	Standard + Symbol SE4500SR

6. SPECIAL MODEL(optional)

6.1 TT35A can use UHF RFID or LF RFID module

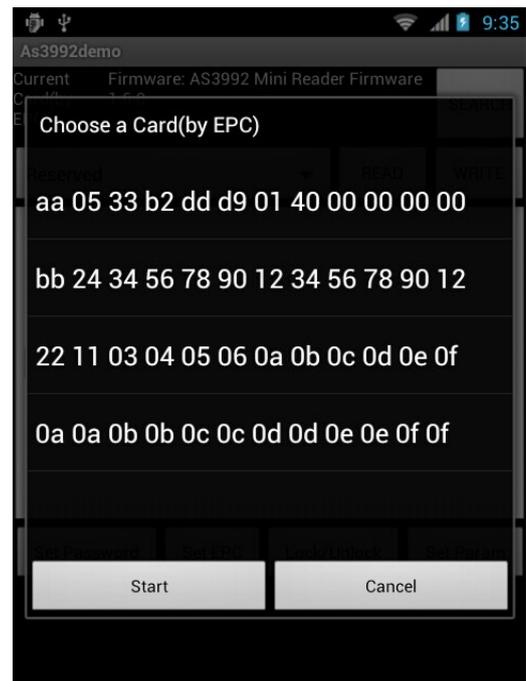

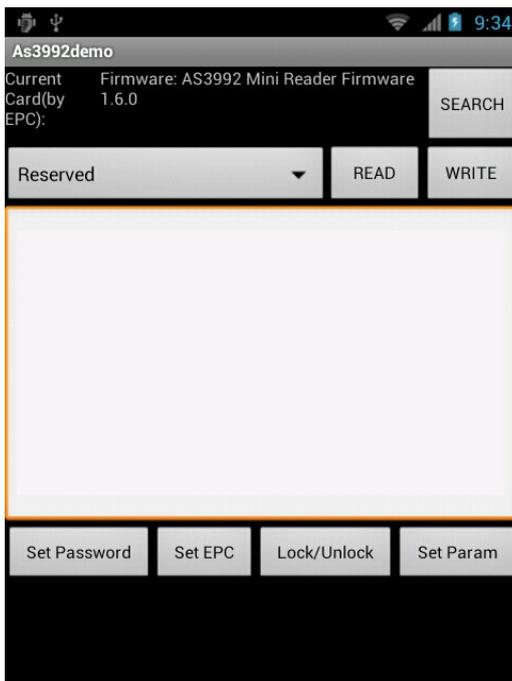

6.1.1 UHF Device Introduction

The UHF module' s freq is 900Mhz , the device with UHF module will add a "-UHF" after the normal name, such as "TT35A-NL-UHF" .

6.1.2 UHF Demo

The device has UHF module, then choose As3992demo in menu, and enter ISO18000-6C, as shown in fig:

First click SEARCH key, a dialog will popup. Click Start key to begin to search card. When a card is in the valid range, it's EPC will list in the screen. Click Stop key and click the EPC directly to select the card. When success, it will go back to main window, and display the EPC in status bar. Now you can operation the card(read/write/lock).

More informations about this demo and develop code please contact the phone manufacturer to acquire.

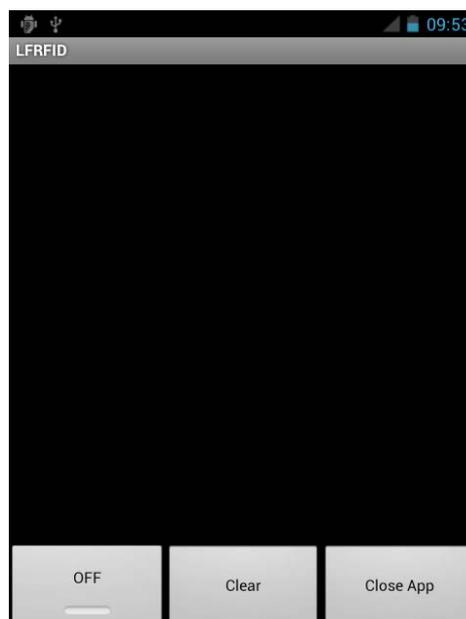

6.1.3 LF Device Introduction

TT35A has two types of LF RFID modules. One's freq is 134.2KHz(LF1) and the other is 125KHz(LF2). The device with LF RFID module will named with a "-LF*" , such as "TT35A-NL-LF2" .

6.1.4 LF Demo

The device has LF module, then choose LFRFID in menu to enter demo, as shown in fig. Click OFF, if it turn to ON and the green bar light on. Now the demo is available. Place a card near the RFID read area, the card's content will display on the screen.

More information about this demo and develop code please contact the phone manufacturer to acquire.

6.2 TT35A Embedded Printer

MT35A can attach a embedded printer, see the picture below. It Can print text and barcode. Page width is 5.5cm .

Note: The device with printer need use two-cell battery motherboard with 7.4V battery.
